Typography Hierarchy

English: Times New Roman

24pt Bold Body
12pt Regular Caption
10pt Italic

Thai: TH Sarabun New

20pt Bold Body
16pt Regular

Bilingual rule: English first, Thai underneath. Both languages should carry equal visual weight and care.

Logo Usage

Guidelines for Proper Logo Placement and Variations

Always maintain clear space equal to the height of the ampersand (&) around the logo. Do not stretch, rotate, recolour, or place on busy photo backgrounds

Tone of Voice

- Professional and confident, never aggressive.
- We explain clearly without oversimplifying.
- Formal in legal documents and client correspondence, approachable in marketing and social media.
- No legal jargon in public-facing content.
- Always bilingual-ready, English and Thai must carry the same level of care.

Do's and Don'ts

Do: Use approved colours only, maintain logo clear space, use Times New Roman for English and TH Sarabun New for Thai, keep bilingual formatting consistent

Don't: Stretch or distort the logo, use unapproved fonts or colours, place the logo on cluttered backgrounds, mix English and Thai fonts incorrectly, use casual language in legal documents
